My dear friend

59  
The time is fast approaching  
for our August meeting. We go again to Remett  
by the urgent solicitation of many friends in  
that quarter. We have circulated the information  
quite extensively, that you would be with  
us, but since we have seen the invitation  
for you to visit Great Britain again, altho'  
it will be a great disappointment not to  
have you with us, we are willing as Friends  
say "to set you at liberty" to do as you may  
think best. It has been talked about  
a great deal in our City & we feel that it  
would be selfish to say any thing against  
you going, altho' we shall miss you more than  
our European friends would. You have from  
many of us the most sincere prayers for  
your health & prosperity & your safe return.  
Should you go will you not have a  
parting word to our friends collected at  
Remett. I hope you will take adieu  
Ballou's love with you. It can be reprinted

on the other side.

Should you go I shall feel more deeply  
than I now do the disappointment in  
not being able to continue my journey

Yours truly  
E. Davis

J. W. L. Garrison
